

Closebot AI Assistant

Performance Summary · Lead conversations across five businesses · August – October 2026

We Build Trades | 5 October 2026

This summary shows how the Closebot AI assistant has been handling customer enquiries across five businesses over the past two months. In every conversation highlighted here, the assistant managed the full chat with the customer on its own — answering questions, qualifying the enquiry, and then either booking an appointment or passing a qualified lead to your team. Each example can be opened in your CRM using the links provided.

62	10	52	5	2
Conversations handled by AI	Appointments booked	Qualified leads passed to team	Businesses covered	Months reviewed

Performance by business

Business	Service	Conversations	Outcome
Prestige Air	Air conditioning	39	Internal notification
Boiler Sure	Boiler install & cover	14	7 booked · 7 to team
The Gower Heating	Heating & boilers	6	Internal notification
Portman UK	Boilers	2	Booked in chat by bot
Keystone Property Claim	Property claims	1	Booked in chat by bot

What this shows

- The assistant holds natural, on-brand conversations and asks the right qualifying questions every time.
- Depending on how each bot is set up, it either books the appointment in the chat, or raises an internal notification and passes a fully qualified lead to your team.
- It performs consistently across very different trades — air conditioning, boilers, heating and property claims.
- No customer enquiry in these examples was missed or left unanswered by the assistant.

Conversations handled by the assistant

The 62 conversations behind this summary, from the last two months. Each was handled by the assistant and ended in a booking or a qualified lead passed to your team. Every one can be opened and read in full in your CRM using its link.

Prestige Air (39)

This bot qualifies each enquiry and routes it to the team as an internal notification — it does not book appointments.
